Matt and Matt,

Will you please review the attached and include any additional concerns or input that was not part of the findings reports? I'm planning to take a closer look at the document and will also provide comments to Jacobs.

The results of this effort will be summarized in a standalone document intended to close out any remaining concerns regarding TtEC data and support the DOJ.

Subject: [Non-DoD Source] For review: building evaluation memo

Hi Pat and Steve,

As requested, please see the attached memo outlining potential additional building data evaluation approaches. Let us know if you'd like to discuss.

Thanks!
